

BRINGING HOME BABY INSURANCE CHECKLIST

HEALTH

- Add baby to your health insurance plan
- Examine your coverage to ensure it's the best plan for all of baby's checkups and vaccinations (consider the cost of co-pays for visits to the doctor)

LIFE

- Consult a life insurance agent to see if your family could benefit from life insurance
- Determine whether a term or whole life policy is more appropriate for your family

AUTO

- Make the necessary policy updates if you plan on getting a new car to accommodate baby
- Revisit your coverage to ensure you have all the types you'd want with a baby in the car or on your new family budget

HOME / RENTERS

- Take an inventory of your belongings and all of baby's gear to ensure your personal property coverage limits are up-to-date and will cover important items for baby
- Consult an insurance agent to ensure your home or renters plan covers baby's expensive items
- If you add safety or baby-proofing features to your home, consult your insurance agent to see if you qualify for any upgrade discounts
- If you are adding on or renovating your home to prepare for baby, make sure to speak with your insurance agent to ensure you have proper coverage

Does your family need help preparing for baby?
